

# CORREO HOFSTAD

800 5<sup>TH</sup> AVENUE, SUITE 101-125  
SEATTLE, WA, 98104-3102, USA  
CORY.HOFSTAD@SEATTLECOLLEGES.EDU  
(206) 487-8408

---

**Citizenship:** Yes

**Special Hiring Authority:** Veteran Preference

**Federal Experience:** *Yes, United States Navy, United States Marine Corps, United States Army Rangers, United States Coast Guard Security Forces, United States Air Force Security Forces, United States Space Force, United States Federal Bureau of Investigation, United States Department of Homeland Security Federal Protective Service, Office of Inspector General, Naval Criminal Investigative Service, Air Force Security Forces Police*

**Clearance:** *TS-SCI w/ Polygraph*

**OBJECTIVE:** I am a commissioned officer applying for a full-time position in medicine, public service, or defense manufacturing to maintain and build priority as a fleet/general officer.

## SKILLS SUMMARY:

I am a United States Navy SEAL. I can fight, guard, fly, jump, run fast, and swim. I am a Department of Defense doctor. **I am privileged to learn the very latest** medical methods and technology the day they are released to the United States government. I am a United States Air Force Security Forces Police Officer. I have leadership experienced within in the highest levels of American law enforcement and protection duties.

My skills include in-field and in-workspace **use of forensics to predict realistic future outcomes**. Using these skills, I develop preventative and responsive solutions to real problems. I am often called to duty for combat or medical emergencies and large planned operations. I help governments and organizations face obstacles that we predicted by building survival skills that focus on strengthening weaknesses. My leadership skills increase income, finance, and strength during hard times. I am active in government leadership. I continue building up the United States Armed Forces for Space Force deployment and international peacekeeping duties. I own defense shares of industry giants Gundam Robotics Systems, Boeing, and Huntington Ingalls Newport News Ship Building. Employment with my corporate allies is my best path.

I am heavily involved in combat-ready restoration of America's battleship fleet. I introduced laser material removal to the United States Navy Command. I developed quantum computers and remote power distribution for the united states navy. FADM Dr. Jacob Rothschild and I own the largest remote power distribution

operation on Earth. Our power is replacing nuclear Tritium based power systems for the modernized battleship fleet. I developed the method of using magnetic paint on US Naval vessel hulls to reduce friction and drag in the water. In winter of 2023, I personally joined restoration crews tasked with renovating the USS Washington (BB 56) for naval deployment availability. The ship's inside and outside structure was stripped of paint and bond materials within 600 hours using laser media removal. The laser media removal was powered by the ship's own remote power systems as a demonstration. I laid down the first layer of primer. UV light was used during the paint curing process to reduce cracks and increase consistency. The exterior of the battleship was painted with 14 layers of paint in 317 hours, quickly to protect the warship from weather conditions. I developed methods to rapidly strip and repair a warship which will be used to decrease vessel downtime during wartime damages and peacetime accidents. I specialize in the use of modern technology to improve existing American arsenals. America now maintains remotely powered, remote controlled battleships, destroyers, and cruisers which are being used to regain control over oil in the Gulf of Mexico.

In the 90's I was known as "The Free Call Kid" for developing interactive voice response in a computer-operated call routing system to maintain contact with family members at the Pentagon, on base, or at sea, etc. I developed the automated voice menu used by modern corporations. I have over 25 years of development experience building America's largest computer networks and international communication grids. My experience as a developer increases ROI during my employment as I am a source of fresh Intellectual Property. **My IP shows a history of building revenue.**

I interact well with a mixed crew of all races. I do not believe in identifying sexual orientation in the professional or military workplace. I am a dynamic worker who chooses to focus 100% of my work time on doing the very best job we can do, growing, and planning for the future. **I have high energy and I am in shape.** I have a Medical Regenerative Certificate from the United States Air Force. I am not considered disabled by the United States military.

- **I developed and created the Multi Domain Operations Command (MDOC) program.** MDOC creates an environment where United States military and law enforcement agencies can cooperate and share information to quickly defeat an enemy. We are accurately utilizing all available up-to-date methods and resources to solve world emergencies.
- I am an expert in diversity management and employee relations within the United States Navy. I assist commanders, leaders, and staff to form mixed crews. I am used as a resource to identify and solve EEO policy questions on accommodations during wartime and peacetime campaigns.

- In 2015, as a command Lieutenant General, I trained a staff of 10,000+ internal and external personnel on diversity rules and regulations. This led to a 37% reduction in violations and improved the overall atmosphere in the United States Air Force.
- **I developed the Boeing MH-139A Grey Wolf helicopter.** In 2014 I purchased the Agusta Westland AW139. I analyzed, developed, tested, and incorporated new weapons and technology to enhance combat processes, controls, and tracking. I was awarded a \$64,000,000,000 Air Force contract award to build Security Forces helicopters. Instead of building my own manufacturing facilities, I bought Boeing from Stan Deal for \$40,000,000,000. I own Boeing manufacturing and use our equipment to prototype and manufacture new IP.
- I am the United States Air Force General responsible for security forces during the August 2021 evacuation of Afghanistan during operation TASK FORCE PINEAPPLE. The Afghanistan evacuation was supervised, motivated, mentored, and enhanced by President CMC Dr. Joseph Biden. Historical examination of the Vietnam War improved our evacuation strategy. **We arrived in Afghanistan with experience-backed judgment, strong work ethic, and irreproachable integrity. I left with jets full of men, women, and children.** Male and female equality in Afghanistan has recently improved through female involvement in competitive sports with their male counterparts. America is sponsoring international sports events that promote academic and physical competitiveness for men, women, and children throughout countries affected by Shariah law.

## **EMPLOYMENT HISTORY**

### **United States Navy**

**Deputy Commander of Naval Material (DCMN), December 2006-2020**

**\$400,000 Salary and 13 years of service**

**Executive Commander of Naval Material (ECNM), February 2020-Current**

**\$650,000 Salary and 5 years of service**

As Deputy Commander of Naval Material, I oversaw congressional sessions to ensure unbiased and accurate reporting. As ECNM I perform interrogations and use forensic methods to authenticate testimony and documentation. **I Perform critical statistical analysis and create survival projections.** My office is used by the American Government and internationally by the United Nations. I create the best strategies for ensuring successful outcomes.

- **I coordinated with all departments within the DOD to develop the MDOC program.** We developed MDOC to break down compartmentalization and improve diversity in the workplace. As Deputy

Commander of Naval Material, I led a detailed analysis of America's armed workforce throughout multiple centuries and developed a strategy to ensure we targeted a broader workforce to accomplish our national goals. This had an immediate impact on our international relations, allowed for the withdrawal of stationed troops in Afghanistan, and promoted an increase of service members in USAFRICOM to protect the region.

- For the past 4 years I have been responsible for researching past virus pandemics in search of solutions to COVID-19. I coordinated with the medical, nuclear, and military industries to measure damage to human health caused by phage virus harvesting for Tritium and to form accurate predictions. Congress determined our national survivability best chances came with denuclearization. We identified various key elements related to viral infections resulting from Tritium harvesting. I performed a statistical analysis on how we could reduce our risk of exposure by increasing human Ph levels with antioxidants. **I developed the Moderna COVID-19 Vaccine.** Vice President Gen. Dr. Mike Pence and Dr. RADM Dr. Anthony Fauci delivered the Moderna COVID-19 vaccine to the international public.

PUBLIC DCMN HOFSTAD DOCUMENTS ARE AVAILABLE ONLINE:  
[https://www.google.com/search?q=&as\\_epq=dcmn+hofstad&as\\_sitesearch=.gov](https://www.google.com/search?q=&as_epq=dcmn+hofstad&as_sitesearch=.gov)

The employer may be contacted.

Commander, Naval Information Forces (NAVIFOR)  
Admiral Kelly Aeschback  
115 Lake View Pkwy  
Suffolk, VA 23435  
+1 (757) 203-3024

**Department of Homeland Security Federal Protective Service**  
**U.S. Department of Health and Human Services**  
**Office of Inspector General**  
**Compliance Auditor Law Enforcement Escort, January 2006-2009**  
**(RESIDENCY) Mayo Clinic Graduate School of Biomedical Sciences**

As a member of the DHS Federal Protective Services, I patrolled hospitals during hospital compliance audits and reviews. I ensured the safety of all DSHS employees during hospital, interviews, tours, investigations, and transportation.

PUBLIC HOSPITAL PROVIDER COMPLIANCE AUDITS AND REVIEWS ARE AVAILABLE ONLINE:  
<https://oig.hhs.gov/reports-and-publications/series/hospital-compliance.asp>

The employer may be contacted.

Inspector General  
David P. Berry  
National Labor Relations Board  
1015 Half Street SE  
Washington, DC 20570  
+1 (202) 273-1960

**SEATTLE SEAHAWKS  
ORTHOPEDIC RECOVERY DOCTOR / SPECIALIST, July 2014-2016  
(RESIDENCY) UNIVERSITY OF WASHINGTON**

As a member of the Seattle Seahawks, I administered Pea Protein, Calcium, Magnesium, Creatine, L-Glutamine, Electrolytes, Fenugreek, and Collagen. The NFL was highly interested in my administration of Fenugreek to reduce brain swelling associated with concussions, my use of oral collagen ingestion for joint injuries, and my ability to promote bone and muscle well-being.

**DEPARTMENT OF DEFENSE  
SURPLUS DOCTOR, June 2019-Current  
(RESIDENCY) UNIVERSITY OF MICHIGAN FLINT**

I work directly for FADM Dr. Jacob Rothschild during national emergencies to assess patients for survival priority. My job is to assign priority to those who need it the most and who are the most likely to survive. I use chart data, physical data, medical history and other factors to make decisions on who receives care first.

**MODERNA  
SCIENTIST, RARE DISEASE, January 2020-Current  
COVID-19 VACCINE DEVELOPMENT  
(RESIDENCY) NATE SANDROCK**

I developed the Moderna COVID-19 vaccine using enzymes that force the liver to produce higher pH levels by inducing wasting of acidic low-pH proteins. I developed the Moderna Melanoma vaccine after discovering that Magnesium was the limiting reagent in the crystallization of melanin to create an evenly distributed melanin layer in the skin.

The employer may be contacted.

Christian Sandrock, M.D., M.P.H., FCCP  
Vice Chair for Quality and Safety; Division Vice Chief of Internal Medicine; Director of Critical Care; Professor of Medicine  
UC Davis Medical Center  
2315 Stockton Blvd.  
Sacramento, CA 95817  
800-2-UCDAVIS (800-282-3284)

916-734-2011

**UNITED STATES NAVY/ UNITED STATES MARINE CORPS  
UNIVERSITY OF WASHINGTON MEDICINE @FREDHUTCH  
FOX ROTHSCHILD  
MEDICAL PHYSICIAN TRAINING INSTRUCTOR / OPERATION CANCER  
MOONSHOT DOCTOR #36, July 2023-Current  
(RESIDENCY) UNIVERSITY OF KANSAS**

I provide medical instruction to American universities and military hospitals. I provide medication to American University Hospitals and set national insurance guidelines for oncology treatment and surgeries.

**DELTA SECURITY SERVICES  
WALGREENS  
LEAD SECURITY GUARD FOR 1531 BROADWAY  
DELTA SECURITY TRAINING INSTRUCTOR  
February 2024-Current**

Pharmacies are closing in Seattle due to crime. Walgreens is using professional security guards in pharmacies to maintain safe access. My full-time duty is keeping the pharmacy open for high traffic volumes of customers from Walgreens, Bartells, and RITE-AID. The neighborhood is a high crime area. We are taking advantage of our ability to continue high-volume business operations.

### **ACCOMPLISHMENTS**

- On September 11<sup>th</sup>, 2001, I was called into the United States Marine Corps White House Sentry Program (WHSP) from the United States Navy. **I successfully defended President Lt. Gen George W. Bush at sea, in the air, and on land through two presidential terms and multiple deployments.**
- **In 2008 I developed the initial design for the United States Army Medical Research Institute of Chemical Defense USAMRICD** to replace the United States Army Medical Research Institute of Infectious Diseases USAMRIID. USAMRIID housed level 4 labs where humans had to suit up, encounter dangerous pathogens, and face death. **USARICD houses robots that interface with infectious diseases.** Robots and experiments are controlled and monitored from remote computer labs in military bases, universities, and the CDC.
- In 2015 developed and implemented a supply inventory program, which automated the ordering of services material and commissary. We always have computerized delivery of our available inventory. The software is very popular with mechanics.

- In 2016 I developed the Northrup-Grumman Sentinel Missile program using non-nuclear warheads and hypersonic delivery rockets. **The Sentinel Missile program replaced the Minute Man III as America's primary long-distance Intercontinental Missile. The Sentinel Missile does not create health risks associated with the storage of nuclear warheads.**
- In 2019 I co-developed Sea Machines operating systems for navy ships. **Sea Machines operates, navigates, and powers ships via remote control and programmed maritime logic.** The Sea Machines system is used for commercial and military vessels.
- **In 2020 I developed modern security measures for remediation of crashes during the Boeing 737 Max groundings.** The Boeing airliner jets contained a security flaw that made the Que operations system available to remote hackers. Hackers used hacked cell phone towers and a software called QCSuper to attack jets in Ethiopia and Indonesia. The attacks were linked to September 11<sup>th</sup>, 2001 terrorist attacks which used stolen Boeing Que terminals to attack airliners through serial terminals located at the front of Boeing passenger cabins. As QCSuper is wireless and does not require an armed invasion of an aircraft cabin, cybersecurity was the solution. **I successfully petitioned new security measures to Pete Buttigieg during an international crisis and ensured safe international air transportation.** Local security company Watchguard now secures all Boeing civilian and military aircraft.
- In 2021 University of Washington was in debt due to COVID-19 economy. I bought Land from the University of Washington, Harborview Medical Center, and University Medical Centers. I was offered the land after the success of my sepsis recovery program. I financed the facilitation of the University of Washington's regenerative medicine program featuring Siemens, Phillips, and Neko medical devices. Regenerative devices rebuild biological lattice structures from damaged tissues and neural systems. **Under my programming and leadership, Harborview Medical Center now has a higher critical care and hospice recovery turnover than any other regional hospital on planet Earth.** Harborview manages medical cases for over 75 contracted Universities and has generated a profit of over \$570 Billion in 2023.
- I developed the Boeing XLUUV Orca submarine. The Orca submarine is unmanned. **Submarine combat crews now spend time in school, at the gym, or at a remote-control console in a safe location.**

- In 2023 I was placed in command of a domestic deployment of United States Marines to Fred Hutchinson Cancer Center for President Biden's Cancer Moonshot program. I was placed on active-duty presidential guard service for President CMC Dr. Joseph Biden. I have been given chief over all new medical treatments at the clinic with the support of attorneys at Fox Rothschild. I am Cancer Moonshot doctor #36. I developed successful strategies for removing cancer masses from patients. The American Association of American Universities is currently standardizing Cancer Moonshot's non-invasive, naturopathic, and integrative medicine into all American University Hospitals. **I have been noted as the most successful cancer researcher and clinical doctor in industry history** after developing new brain tumor removal and Apheresis methods using UV-C light frequencies.

## COMPUTER SOFTWARE

## **ADDITIONAL TRAINING**

**I have two decades of experience as an Executive Assistant to Fleet Admiral Dr. Jacob Rothschild - USN.** I have researched government-selected literature and training materials on the application of civil administration, global finance, civil defense, and maritime admiralty law.

- Extensive Law Enforcement Training: Laws, Prosecution & Defense, Diversity, Law & Order Relationships, Complaints, and Resolutions, SWAT, & Tactics: (1000+ hours Security Forces Training)
- Extensive leadership management training in expedition planning and security during large-scale government projects. As a General and Fleet Officer, I develop project plans, schedules, manufacturing, materials sourcing, and contingency options. (1000+ United Nations Peacekeepers, USSOCOM)

## **EDUCATION**

**NAVY HEALTH PROFESSIONS SCHOLARSHIP PROGRAM (HPSP) – Navy Medical Corps, Falls Church, Virginia, 1990**

<https://www.med.navy.mil/Accessions/Health-Professions-Scholarship-Program-HPSP-and-Financial-Assistance-Program-FAP/>

\*Graduated Cum laude    \*\*Dean's List: (27 times)

## **HONORS AND AWARDS**

- I was born on the USS Towers (DD-959/DDG-9) on November 5<sup>th</sup>, 1988. On June 1<sup>st</sup>, 1989, the destroyer partially sunk. I had learned to swim and was able to rescue 9 soldiers. The USS Nimitz recovered the Towers and our crew. I was nicknamed “MIRICYL BABY”. I was awarded the Navy Health Professionals Scholarship. I was awarded the Admiral Chester W. Nimitz Scholarship on December 17<sup>th</sup>, 1991. I used the Nimitz scholarship to pay for my first academic medical certificate. I use my scholarships, certificate, and following educational programs to rescue American soldiers and civilians.
- Bronze Star – November 4<sup>th</sup>, 1992 for killing French Foreign Legion forces in close combat to defend the bodies of five marines in a CH-53E Sea Stallion helicopter shot down by the Legionnaires. Sixteen United States Marines survived.
- Distinguished Service Cross – September 15<sup>th</sup>, 2001 for investigating intelligence leads on the Osama Bin Laden family and obtaining video evidence. Investigations concluded that the family was speaking to others about ripping off passenger credit card terminals in the front of passenger cabin areas of Boeing jets, connecting stolen Q terminals to credit card reader serial terminals, and hijacking aircraft Q controls on September 11<sup>th</sup>, 2001.
- Medal of Honor – October 13<sup>th</sup>, 2013, for physically blocking a terrorist's vehicle with my own body during a successful Delta Forces raid and capture of Ibn al-Shaykh al-Libi.

## **VOLUNTEER WORK & COMMUNITY INVOLVEMENT**

(2006-2010) Snohomish County Sheriff

(2016) Grant Financer University of Washington Experimental Education Unit |  
Haring Center

(2020 - current) Volunteer neighborhood watch and crime reporting for Leschi,  
Central District, Capitol Hill, & Downtown Seattle.

(2023) Washington State Security Guard License #23022598  
GUARD LICENSE CLEARANCE: TOP SECRET SCI W/ POLYGRAPH

## **PROFESSIONAL ASSOCIATIONS**

**RE: Fw: Background Screening Notice**

US Tier-4 Candidate SD <candidate.support@sterlingcheck.com>

Mon 11/20/2023 11:06 AM

To: Hofstad, Cory <Cory.Hofstad@seattlecolleges.edu>

Hi Cory,

Greetings! We apologize for the delayed response.

Your background under order number 1842868221 has been completed as on 09/21/2023.

The same has been sent to your prospective employer, please contact them for further details.

Regards,

## EEOC AND FTC RELEASE GUIDANCE ON BACKGROUND CHECKS

By Jordan B. Kaplan

In a combined effort to increase employer awareness of federal regulations relating to background checks, on March 10, the U.S. Equal Employment Opportunity Commission (EEOC) and the Federal Trade Commission (FTC) issued joint informal guidance concerning common issues that employers face. The agencies published two technical assistance documents that explain how the agencies' respective laws apply to background checks performed for employment purposes. One document is specifically for employers, and the other is for job applicants and employees. Below is a summary of the guidance provided to employers. A link to the employer guidance can also be found [here](#).

In their guidance, the EEOC and FTC advised employers to consider the following factors when obtaining background information from a job applicant or current employee:

- Make sure that all applicants and employees are treated equally. It is illegal to check the background of employees or applicants when a decision is based on a person's race, national origin, color, sex, religion, disability, genetic information (including family medical history) or age.<sup>1</sup>
- Do not try to obtain an applicant's or employee's genetic information, including family medical history. Even if you have this information, the EEOC stresses that it should not be used to make an employment decision.
- Do not ask any medical questions before a conditional job offer has been made.
- If the employee has already started his or her job, do not ask medical questions unless the employer has objective evidence that the employee is unable to do the job or is a safety risk due to the medical condition.
- If you obtain background information (for example, a credit or criminal background report) from a company in the business of compiling background information, the Fair Credit Reporting Act (FCRA) requires several additional steps:
  - o Tell the applicant or employee in writing that you may use this information for employment decisions. This notice must be in writing and in a stand-alone format. The notice cannot be in an employment application;
  - o If you are asking a company to provide an "investigative report" – a report based on personal interviews concerning a person's character, general reputation, personal characteristics and lifestyle – you must also tell the applicant or employee of his or her right to a description of the nature and scope of the investigation;
  - o Get the applicant's or employee's written permission to do the background check; and
  - o Certify to the company from which you are getting the report that you: notified the

applicant and got his or her permission to get a background report; complied with all FCRA requirements; and won't discriminate against the applicant or employee or otherwise misuse the information.

After an employer receives background checks on applicants and employees, the employer should remember the following:

- Ensure that the same standards are applied to everyone, regardless of their race, national origin, color, sex, religion, disability, genetic information or age.
- Take special care when basing employment decisions on background issues that are common among people of certain races, colors, national origin, sexes or religions, people with disabilities or people 40 years and older. For example, the guidelines suggest that employers should not use a policy or practice that excludes people with certain criminal records if the policy or practice significantly disadvantages individuals of a certain race or national origin and does not accurately predict who will be a responsible, reliable or safe employee.
- At any time before taking adverse action against an employee, an employer must provide the employee with a copy of the consumer report it relied upon to make the decision and a copy of "A Summary of Your Rights Under the Fair Credit Reporting Act."
- After taking adverse employment action, inform the employee (orally, in writing or electronically):

that the report was the basis for the employer's decision and provide the name, address and phone number of the consumer reporting agency that furnished the report; that the company selling the report did not make the hiring decision and can't give specific reasons for it; and inform the employee that he or she has the right to dispute the accuracy or completeness of the report and may obtain an additional free report from that reporting company within 60 days.

Finally, when the employer wishes to dispose of background information, the employer must comply with the EEOC and FTC regulations. Under the EEOC rules, the employer must keep personnel or employment records for the later of one year after the records were made or after personnel action was taken. If the employee files a charge of discrimination, the employer must keep all records until the case is concluded. Under FTC rules, after satisfying applicable recordkeeping requirements, an employer must dispose of all reports securely by shredding all background reports.

Employers with questions relating to application of this law should contact experienced employment counsel before making any determinations.
